The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the angular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing hope to the public a parallel fact; that the stomach is the most vulnerable organ out of the ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we utterly neglect and, until discovered, finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Dr. Pierce's Golden Medical Discovery and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Advisor will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 21 stamps. Address Dr. Pierce as above.

THE STATE'S EXPENSES.

Hoping to be spared the necessity of reporting a bill which would retard the rapid progress which the state has made during the past few years, the Senate finance committee, in a report presented to the Senate on Thursday, says that it does not believe it expedient or proper, if, indeed, contemplated by the Finance Committee, under which the recent sessions of the committee have been held, that a bill ready for intelligent action could be presented at the opening of the session of the General Assembly.

The report frankly recognizes the inability of the committee to comply with the terms of the resolution, requiring it "to prepare the appropriation bill proper without increase of salary or annuity," that would not decrease the present appropriation for these purposes, if framed so as to carry no greater sum than was warranted by the present sources of revenue of the commonwealth. It is recognized that with the present high cost of living, to materially decrease the appropriations of any of these departments or institutions, or to reduce the salaries of the comparatively few officials who are not protected by constitutional provisions, would seriously cripple and embarrass many of them.

The recent careful and painstaking investigation into the needs of the departments and institutions has convinced the committee that necessary increases must be made which will amount to an aggregate of from \$275,000 to \$300,000 for the fiscal year beginning March 1, 1910.—Richmond Times Dispatch.

OPERATION ON COBRA.

Risking their own lives to save that of a cobra with an abscess behind its jaw, Raymond L. Dittmars, curator of reptiles, and Charles Snyder, head keeper of the Bronx Zoological Park, New York, captured the serpent and saved the abscess yesterday.

The cobra operated on yesterday was, until a few days ago, exceedingly docile. But, influenced by the pain of a slowly gathering abscess, it writhed and hissed and manifested irritability to such a degree that the ordinary methods employed in capturing serpents could not be utilized. The cobra spat viciously at every sound, and Mr. Snyder realized that it meant death to enter the cage until the snake was made helpless. So it was decided to feed it with a water snake and, when the cobra had half digested the meal, to seize and operate upon it.

A large-sized watersnake was thrown into the cobra's cell. There was a battle royal on the instant, and within a few minutes the cobra was making a meal of the water snake. When it was half swallowed Mr. Snyder threw open the door of the cage, seized the cobra and held it long enough to enable Mr. Dittmars to lance the abscess. The snake squirmed itself loose, but before it could get ready for action Mr. Snyder had made his escape. The cobra, which is nearly 6 feet long and 4 inches in diameter, is recovering.

Sufferers who say they have tried everything without benefit are the people we are looking for. We want them to know from first experience that Ely's Cream Balm will conquer Cold in the Head, Hay Fever, and obstinate forms of Nasal Catarrh. This remedy acts directly on the inflamed, sensitive membranes. Cleansing, soothing and healing. One trial will convince you of its healing power. Price 50c. All druggists, or mailed by Ely Bros., 56 Warren St., New York.

DEBTS OF A PRINCESS.

According to a detailed list compiled by the Neues Wiener Tagblatt, Princess Louise of Belgium owes \$250,000, exclusive of debts contracted by her last year.

The tradesmen, hotel proprietors and other creditors are making anxious inquiries regarding the estates of the late King Leopold, and the possibility of Princess Louise securing a greater legacy than to be accorded to her by her father and bequeathed by him to his children.

Princess Louise is said to owe hotel proprietors in Paris, Berlin and Monte Carlo \$78,000 while she is indebted to various Berlin moneylenders for over \$50,000.

She purchased estates from various landowners, mostly in Hungary, and gave bills of exchange which show that she owes \$220,000. The princess owes Frau Steger, her former chamberlain, over \$16,000.

In addition there are many unpaid debts incurred by Princess Louise in Vienna when she was the wife of Prince Philip of Oberg. Her former husband paid about \$90,000 on her behalf, and she owes another \$50,000. Most of her creditors in Vienna are dressmakers and jewelers.

A curious debt is one of \$3,000 due to Herr Weizer, who financed the princess's flight from Lindenhof Asylum, near Dresden, where she was detained by the order of her husband.

RAILROAD ACCIDENTS.

A freight train ran away down a mountain and jumped over a precipice near Leadville, Col., yesterday, on the Colorado Midland Railway. Four men were killed and three other persons were injured. The airbrakes failed to work. Locomotives and cars dropped 60 feet and were reduced to scrap iron and kindling wood. A number of passengers were buried in the wreckage, but they dug their way to safety with the aid of other passengers outside.

Carl Kitchen, passenger train fireman, was killed and ten persons were injured yesterday in a collision between an Illinois Central passenger train from Memphis and a freight train near Pinola, Mo.

Mr. Louis Zie, of Cleveland, was killed and ten other passengers were injured, one probably fatally, in a head on collision yesterday between a passenger and a freight train on the Chicago, Milwaukee and St. Paul Railroad at Kysone, Iowa. The freight had been ordered on a siding out of the passenger train's way, but failed to make time.

PHARMACISTS.

The State Board of Pharmacy has announced the list of applicants who had successfully passed the examination for registered and assistant pharmacist.

Among those declared registered assistant pharmacists are: J. W. Smith, Bellehaven; Frank A. Robey, Merndon; and O. S. Bruce, Calpeper.

LOST ITS PLACE.

The United States has lost its place as the greatest wheat producing country in the world, and Russia has won that distinction. Even though last year the total yield of wheat in the United States was next to the largest in the history of American agriculture, the crop of 1901 only having exceeded it, Russia last year produced the remarkably large harvest of 783,000,000 bushels, or 46,980,000,000 pounds, which constitutes the largest crop ever harvested by any country, and 26,000,000 bushels greater than that of the United States.

GOVERNOR'S APPOINTMENTS.

It is announced by friends close to Judge Mann that the new governor will appoint heads for the several departments within a day or two after his inauguration as follows: J. S. Bauserman, of Shenandoah, to succeed himself as commissioner of hospitals for a full term of four years. W. M. Lee, of Lancaster to continue as chairman of the Fisheries Commission; James B. Doherty, of Richmond, as commissioner of labor. There will be many changes in the personnel of the several boards. Mr. Lee will be probably the only member of the Board of Fisheries to receive a re-appointment.
